

BAYFIELD SUSTAINABILITY SUMMIT

Big Solutions for Small Communities

Learn what *you* can do to reduce Climate Change and protect our Drinking Water — as an Individual and a Community

PRACTICAL SOLUTIONS FROM LEADING EXPERTS ...
INTERACTIVE SESSIONS FOR QUESTIONS & DEBATE!

MAUDE BARLOW

Bestselling author and activist Maude Barlow lays bare the defining issue of our coming decade: the vulnerability of Canada's water reserves. According to the Globe & Mail, she delivers "the most eloquent call to arms we're likely to hear about the politics of water."

PROFESSOR TOM DAVIS

Trained by former Vice-President Al Gore in the fight against Climate Change, Fanshawe College's Tom Davis offers practical solutions on how you can lower your carbon footprint and live sustainably. Learn how modern building techniques offer zero energy outputs.

RON KAGAN

Detroit Zoo's CEO will highlight the Zoo's sustainability projects, current and future: Tesla Solar Shingles; an Anaerobic Digester that turns manure into compost and power; no Single Use Water Bottles; and more. Learn how your organization can create less waste while lowering energy use.

MARI VELIZ

Shallow, sunken 'Rain Gardens' protect local water quality by absorbing and filtering run-off while reducing flooding and erosion. Mari will discuss rural and urban stormwater management best practices, focusing on the rain garden that was built in the Village of Bayfield.

PHILIP KEIGHTLEY

Climate Change means we'll all have to deal with the effects of more extreme weather in the future, yet traditional engineering solutions are out of reach for smaller communities. A Civil Engineer by trade, Philip will present simpler, more affordable solutions for smaller municipalities.

Saturday, September 23, 2017 9 am - 5 pm

BAYFIELD TOWN HALL, Bayfield, Ontario
